

Building a Bald Eagle!

Gather all your resources. You will need:

- One empty toilet roll
- 2 or 3 blank pieces of paper
- Assorted colouring pens or paint (you will need brown, orange and black)
- Scissors
- Glue
- White paint or a couple sheets of loo roll or some white paper
- Googly eyes (if you have them)

Step One:

- On one of the pieces of paper, draw around your hand – you might need an adult to help you. Make sure you include about 3 cm of your wrist.
- Repeat on another piece of paper so you have two hands.
- Cut out both the hands making sure to include the wrist.
- Colour or paint in your hand cut outs brown. You can decorate them with feathers or extra detail if you are feeling creative!

Step Two:

- Decorate your loo roll. Colour two thirds of it brown.
- Decorate the top third white by either painting it or sticking/wrapping loo roll or white paper around it.

Step Three:

- Draw out a beak and 2 separate feet on a piece of paper.
- Colour these in and then cut them out – remember to colour in your claws!

Step Four:

- Time to assemble!
- Stick your decorated hands to the back of the loo roll with glue – make sure you stick the wrist section so you have most of the hands poking out at the sides to be wings.
- Stick your feet on the brown section at the bottom of the loo roll.
- Stick your beak onto the bottom of the white portion of loo roll.
- If you have googly eyes you can stick them on – if not draw on the eyes.
